SKILLS

- Javascript, TypeScript, React, Angular, Android Development, React Native, Redux, CSS, HTML, Node.js, Express.js, MySQL, PostgreSQL, postman, Git, Bitbucket, Grafana, AWS, Azure, JIRA, MUI, Python, .NET

EXPERIENCE

Frontend Lead Mar 2024 - Present

Greenpay Network Private Limited

- Delivered high-impact production systems using React, React Native, and Angular 18, resulting in a 30% improvement in load time.
- Led a team of 4+ engineers, coordinated Agile sprints, and conducted over 15 code reviews per week to ensure code quality and consistency.
- Managed technical hiring processes, improving recruitment efficiency by 10% through effective candidate evaluation and selection for team expansion.

Software Developer Jul 2023 - Mar 2024

Thinkonic Software Private Limited

- Resolved over 100 interface inconsistencies, resulting in a 25% improvement in latency.
- Coordinated with two separate QA, UX, and data engineering teams to ensure milestone alignment.

Assistant Software Engineer Jun 2021 - Jul 2023

Konverge ai

- Analyzed and resolved UI and functionality obstacles, reducing development cycle time by 15%.
- Assembled functional layers using Redux, creating engaging pages across 4 projects.

PROJECTS

FinPay App

Developed one B2B web application and one admin panel as a secure hybrid system with token-based workflows, ensuring encrypted transaction processing.

StoreDash Suite

Built a modular dashboard using Jotai, 10 different ECharts, and Material UI, with full support for dark mode themes.

UrbanData Map

Designed a custom traffic analytics panel using React and three types of charts with ECharts for transport data visualization.

WorkSync HR

Streamlined employee onboarding using Docker, with a scalable architecture consisting of 80% frontend (ReactJS) and a backend built on Node.js.

ACHIEVEMENTS

Software Engineer with 5 years of experience, currently working as a Frontend Lead in the organization, specializing in building data-driven dashboards, monitoring systems, and financial applications. Skilled in data visualization, analytics, and backend integration using JavaScript, Python, and SQL. Interested in applying analytical and technical expertise in data analytics, financial systems, and public policy research.

EDUCATION

Fergusson College (Pune) 2021

MS
